

Remarks:

Amendment of claim 37 is requested. This amendment is a narrowing amendment to claim 37 in that (1) the shiftable body recited in the first paragraph of claim 37 is movable "within a housing," and (2) the magnetic field recited in the second paragraph is "generated at least in part between said body and a magnetic component carried by said housing." No new matter is being introduced as a result of this narrowing amendment to claim 37. A Statement of Status and Support for claim 37 is attached hereto pursuant to the requirements of 37 CFR § 1.173(c).

The claims are allowable over the art of record for the reasons discussed in earlier prosecution. In view of the foregoing, a Notice of Allowance appears to be in order, and such is courteously solicited.

Respectfully submitted,

By
